RECENTLY I had an opportunity to spend a full day with two of our larger customers. We discussed transportation in general and the way in which each type of transportation fitted into the needs of industry.

I came away feeling that customer satisfaction with our service is made up of many things, some large, and some small, most of them in our own control.

The business we get and the business we keep depends on how well every one of us does his own particular job.

Our joint efforts result in the service job we do. If it is a good, dependable service, the result is customer satisfaction. As customer satisfaction grows, so do we, and so does Erie.

THE COVER:

Croxton Yard, heart of the Erie Railroad's New York Division, as seen immediately after a light March snow, is this month's cover subject. The bridge in the foreground is the Pennsylvania's main line to New York, and the Hudson can be seen shimmering in the sun to the west at the top of the picture. For more about the New York division, turn to Page 12.

OUR OBJECTIVE

Primarily the Erie Railroad Magazine is published for Erie employees and their families, secondarily for Erie shippers, suppliers, shareholders and others interested in the railroad. The editors try to tell objectively and completely about the progress of the Erie by discussing management's policies, day-by-day practices, problems and plans for the future. Just as important is the human side of the news. Emphasizing contributions to better citizenship and a better Erie, part of each issue is devoted to individual aspirations and achievements of Erie employees on and off the job.

George C. Frank  Asst. to President
Talbot Harding  Associate Editor
Mabel I. Ross  Secretary
John F. Long  Photographer-Reporter

Distributed free of charge to Erie Railroad employees. To others, $1.50 a year. Single copies, 15 cents. Material and photographs should be sent to the editorial and business offices, 1327 Midland Building, Cleveland 15, Ohio.

Freight Cars Loaded on the Erie and Received from Connecting Railroads

* STEEL STRIKE
Erie Ferry Service, 96, to End on August 14th

ICC Writes Finis to Story Started by George II

For over a hundred years ferries have been plying between Manhattan and Jersey City, for the last 96 of them under the house flag of the Erie Railroad.

That service is scheduled to end on the 14th of this month, when the last ferry will leave Chambers Street at 10 p.m. Eastern Daylight Time and arrive in Jersey City in time to connect with the Susquehanna's Train No. 933, a local that will leave at 10:50 for Butler.

Permission to abandon the service was granted the Erie by the Interstate Commerce Commission in a decision handed down on July 11.

However, the first governmental action taken about the ferry was that taken in the reign of George II, when, in 1773, a royal grant of the right to operate a ferry, and erect wharves at Pavonia and on Manhattan was awarded Archibald Kennedy. However, Kennedy did not exercise the privilege, and forfeited it.

Once Only Way

For many years the ferries were the only route between the Jersey Shore and Manhattan for people, wagons, cattle, and, in a later day, automobiles.

But the completion of the Hudson and Manhattan tube in 1908 drained away much of the commuter traffic, and in recent years a series of bridges and vehicular tunnels, built with public funds, made subsidized truck and bus competition possible.

Under Erie management the ferries were always delightful to ride, and left at stated times. That things were not always so on the Pavonia ferry is shown by an 1835 advertisement of the Paterson and New York Rail Road Line, which warned passengers that "as the ferryboats do not leave New York precisely at the above times, it is recommended to passengers to procure their tickets and to be at the ferry a few minutes before the stated time of departure."

By 1851 the American Railway Guide and Pocket Companion (and in 1851 you could slip the Guide into your pocket easily) showed the ferry connecting with six trains each way from Jersey City on the Ramapo, Paterson and Hudson River Railroad, now part of the Erie's main line.

And half those trains ran all the way to Suffern, where they made connections with Erie Railroad main line trains. In those days, of course, the eastern end of the Erie main line was at Piermont Dock.

The fare in 1851 was four cents, and the Manhattan ferry house was at Duane Street. Later the ferry was to run to 23rd Street, and to Chambers Street. The 23rd Street ferry was discontinued July 5, 1942.

Beautiful Hoboken

The Jersey Shore was a far different place in 1851 from the Jersey Shore we know today. One notice in the 1851 guide told of the ferry services to Hoboken, where the Lackawanna ferries—two of them former Erie ferryboats—now accommodate Erie passengers.

The Guide had this to say about Hoboken: "This, the most favorite of summer resorts, now offers to visitors greater inducements than ever. The beautiful walks along the riverside leading to the Elysian Fields are in excellent order."

There followed schedules showing frequent services to Barclay, Canal and Christopher Streets.

Hogs Traveled, Too

The Pavonia or New Jersey ferry was first operated by the Erie in 1861, and by 1864 the fare for persons had been reduced to three cents. Hogs, too, were paid for at that rate.

That rate was not intended to discourage people, or to encourage hogs, as the rate schedules show many other animals and their rates. For example, cattle were moved across the river at the rate of 15 cents a head, with the exception of calves traveling with their mothers, who were carried free.

Children from five to 10 paid at the rate of two cents; until they were over five they traveled free. A mounted man paid nine cents for himself and his horse.

But few will sigh over the passing of the Pavonia ferry. Thanks to the transfer of two Erie ferries to Lackawanna ownership, the service between Hoboken and Barclay Street is
Erie Men Solve Housing Problem with Own Hands

Swing Hammers to House Families in Comfort

TWO Erie men have found their own solution to the housing problem.

They and their families are now living in houses on sites they chose, in the styles they prefer, and with floor plans that fit their families and interests. Many dream of living in such houses, but few achieve that dream.

But Robert K. Clark, dispatcher, and Gary Hall, relief operator, are now living in such houses in Marion’s Lush Addition, within easy reach of their work, and their debt loads are light.

Built Own Houses

They realized their dreams—and those of their wives—by building the two houses themselves, with their own hands.

“Save for the excavating and the plastering,” Bob Clark says, “we did everything ourselves. We not only are living in houses that we could not have had in any other way, but we have the added satisfaction of the accomplishment.”

Both houses are modern ranch-type dwellings standing on 110 by 180 foot lots. The Clark house has two bedrooms, the Hall house three, and both have gas-fired hot water heat.

Room for Children

There is plenty of room for children to play—Gary and Patricia Hall have two boys, Kevin, 7, and Kerry, 5, and Bob and Martha Clark have one son, Bradley, 8 months old—and large oaks at the rear of the lots are alive with blue jays and squirrels.

Perhaps the most startling thing about the houses is something invisible. In recent years some savings and loan companies have made special “build-it-yourself” loans. But the Clark and Hall houses had no formal financing until after they were built.

(Next page, please)
Build Own Houses

The two men, who worked as a team in building the houses, found a lumber dealer who would advance them material until the houses were completed, and meanwhile help them with advice.

Financed Later

Once the houses were completed, money was borrowed in the usual way, and the dealer repaid. Incidentally, the lumberman told Clark and Hall that he had been following that practice with about eight houses a year for the last 20 years, and had only one loss in all that time.

Among the joys of living in a house you built yourself, the new owners say, is that you know just how well every utility connection was made, and just where it is. Too, it makes a super-handymen of you. You know, once you have built your own house, that there is nothing in or about it that you do not know how to repair.

Plans for the houses were bought from a stock plan service, but they were revised by the builders before the construction started.

Thus the Hall house has a stone front not shown on the original plan, and a porch as well.

Would they advise others to build their own houses?

To this their answer is an unconditional "Yes." They are enthusiastic, even after all the long hours of labor, and if they experienced any frustrations or disappointments, they do not remember them now.

Travel by Rail, Check All Cares

E. B. Padrick, chairman of the Railway Travel Promotion Agency, Chicago, gives the following reasons why people should travel by train:

Comfortable, non-skid travel in all weather. No flat tires to change, road maps to decode, parking problems or mothers-in-law in the back seat. Rent the only home you'll ever have where you can see the world go by your window. Eat good food, meet congenial companions, or be a recluse in your all-purpose, "smooth-as-a-Pullman" roomette. Wherever you go, the best travel guide to a care-free vacation is the cry: All aboard; En Voiture! Einsteigen! and Partenza!

August, 1957
Brilliant Sun Beams on Erie Veterans at Annual Outing

Games Canceled by Heat as 2,100 Meet at Lake

RIGHT SUN in a blue sky made the 1957 annual Erie veterans' outing at Conneaut Lake Park one to remember. It also caused the 2,100 veterans and guests who attended to seek the shade, and spend their time trading news of old friends in shady spots.

For a while it looked as if the baseball game, the egg-and-spoon, three-legged and sack races would go off as scheduled, for the rain that had marred recent outings was missing.

But the hot sun proved as efficient a deterrent to violent exercise as the heaviest downpour, and all the games were canceled because of hot weather.

Many of the veterans attending took speedboat or sightseeing rides on the deep blue lake, set in emerald green hills not far from Meadville.

Those who attended included veterans from all along the line, from off-line agencies, and many retired veterans, some of whom now live most of the year in Florida.

The day began with the arrival of three special trains from all parts of the line. Passenger service even ran to and from Buffalo that day—July 20—and some of the 38 Pullman cars assigned to the movement started there. As the trains arrived, hundreds who had made the trip by car also crowded around the registration desks set up on the hotel lawn.

Children, Too

Some chapters even had their own headgear—white cloth peaked caps for Hornell members, and paper butcher hats for members of the Jersey City chapter.

Gayest uniforms of all were worn by the Erie Huntington Band, dressed in Erie Blue and Erie Gold. The band had little time for chat. While other veterans were holding reunions and finding out what had happened in the lives of friends they had not seen since the last outing, the band was busy playing current hit tunes, among them many from the score of "My Fair Lady."

Many veterans had brought children with them—their own, their grandchildren and friends of their children and grandchildren. These quickly scattered, after receiving

Erie Railroad Magazine
PRESIDENT VON WILLER congratulates Thomas H. Stapleton, who won medal as oldest veteran at the picnic.

YOUNG MAN AT LEFT was afraid to watch the acrobats, but everyone else kept his eyes glued on them.

FOUR GIRLS FROM WEEHAWKEN take a little nourishment—if spun sugar and candy apples are nourishing—while their elders visit. Left to right: Audrey Matthews, 16, and her sister, Judy, 13; Eleanor Schlosser, 13; and Rosemary Weir, 12. The Matthews girls are the daughters of Roger Matthews, checker; Rosemary’s father, George Weir, is a checker too. Eleanor was their guest.

BLUE AND GOLD of the Erie Huntington Band matched the sky and the sun.
Traffic Rise Forecast for Second Half

Erie President Sees ICC Ruling as Big Factor

FAVORABLE business conditions for the rest of 1957 and an improvement in freight traffic, especially in the heavy goods industries, are forecast in President Harry W. Von Willer's mid-year report to Erie shareowners.

But he warned that net income results for the year will depend largely on the decision expected from the Interstate Commerce Commission on the 15% rate increase the railroads have asked for on a basis of return on investment.

The railroads have asked for a 6% return in the first hearing in which investment was made the basis of the petition. Last year the Erie earned 3.79% on its investment; the industry as a whole earned 3.95%.

In reviewing the first six months of the year Mr. Von Willer pointed out that 1957's first two months were good ones, but that there was a lessening of demand for transportation in the succeeding four months.

By the end of June, the six-month total of carloads originated on the Erie and received from connecting lines was 6.5% below 1956, and revenue ton miles of freight handled had fallen 3.3%.

Even though traffic volume was off, total operating revenues were about the same as last year because of an increase in freight rates which went into effect on Dec. 28, 1956.

Effect of Wage Boosts

However, higher wage costs and increased prices for materials increased operating expenses more than 5%, so that the net income per share of common stock for the first half of 1957 was 61 cents; in 1956 the income per share in the first six months was $1.45.

In June the downward trend of business was seen to ease, and revenues in July should show a good improvement over 1956, when the steel mills were shut down because of a 34-day strike.

(please turn to page 23)

400 New Cars to Roll over Erie

The first of 300 new gondola cars, 50 of them equipped with skids and steel covers for the transportation of steel in coil and strips, and 100 new roller-bearing covered hoppers will be rolling over the Erie Railroad when you read this.

All 400 cars are being built by Greenville Steel Car Co.

Roller bearings were specified for the covered hoppers, which will be used in general covered hopper service, so that they may be used in high speed freight service.

The gondolas, of the fixed end type, will have a capacity of 70 tons, and will be 52 feet 6 inches long.

Army Rail Vets Plan 12th Rally

Veterans of military railroad service from all parts of the country will gather in Atlanta, Georgia, September 13, 14 and 15 for their 12th annual reunion. A lively program has been planned for this group of railway service veterans who carried guns, ammunition and equipment to the battle fronts during World War II and the Korean War. Special activities are also being planned for the many wives expected to attend. Arrangements are being handled mainly by R. E. Godley, manager of stores of the Illinois Central Railroad. Inquiries regarding the organization should be directed to Fred W. Oide, secretary-treasurer, P.O. Box 536, Pittsburgh 30.

Kinzua Bridge, Once Wonder, Slated for Scrap

KINZUA VIADUCT, the Erie Railroad's way across the deep gorge cut through the Pennsylvania landscape by Kinzua Creek just north of Mount Jewett, will be abandoned and sold for scrap if the Interstate Commerce Commission approves a petition presented to it on July 15.

The petition asks permission to abandon 14.15 miles of track through the Pennsylvania hills from Mount Jewett to Lewis Run—and there are no intermediate stations—and to confirm a trackage agreement giving the Erie rights to run trains over the Baltimore & Ohio double track line between Mount Jewett and Limestone, N. Y., a distance of 28.8 miles.

The two railroads run roughly parallel between J&B Junction, just north of Mount Jewett, to Limestone, and there are no stations on the Erie between Mount Jewett and Lewis Run. The Erie would continue to operate its line between Lewis Run and Limestone, serving the intermediate stations of Howard Junction, Custer City, Bradford and East Bradford.

The mountainous nature of the landscape, and the high costs of operating the railroad between Mount Jewett and Lewis Run can best be illustrated by Kinzua Viaduct, the longest and highest structure of its kind in the world when it was built in 1882 of wrought iron, and the fourth highest and longest when it was rebuilt in 1900 of steel.

The new route is expected to save the Erie Railroad $333,699 a year in taxes, and $30,139 in maintenance costs, plus crossing protection costing $12,960.

Track Pact 108 Years Old

The earliest trackage agreement entered into in the United States was one made about 108 years ago between the New York & New Haven and the New York & Harlem railroads for the joint use of tracks between Williams Bridge and New York City. The agreement is still in force, the present railroads being the New York Central and the New Haven.

Erie Railroad Magazine
Artists, Public, Still Love Erie's Starrucca Viaduct

Painting of Span Outsells Other Rail Art

WHEN the early men of Erie ordered the building of Starrucca Viaduct they had only one thought in mind: to provide a path for the railroad across the deep gorge of Starrucca Creek. They did not intend to furnish artists a subject for their pens, pencils and brushes. They did need to pass over that gorge on their way from the Hudson River to Lake Erie, for there was no way around it.

And they did successfully pass over the gorge. Their viaduct, beautifully simple in design, as well built masonry often is, is stronger today than when it was completed in 1848. But the size and grandeur of the work have attracted artists from the first, and photographers since the invention of the camera.

Even while the bridge was building it attracted artists, drawn by the news value of the work, for it was to be the biggest such structure of its day. In the midst of the wilderness a village of bridge workmen and their wives, together with the blacksmiths, stablesmen, carters, wheelwrights, and all the other auxiliary trades then needed, sprang up on the site, and offered subjects to delight anyone.

"Starrucca Vale"

That was the by-product of the building of the viaduct, the thing that probably did not enter the minds of the men of Erie, save fleetingly.

And ever since its building the viaduct has been a favorite subject of artists. Perhaps the most famous of the paintings is that by Jasper Francis Cropsey, a member of the Hudson River School, whose oil, "Starrucca Vale" now hangs in the Toledo Museum of Art.

Nor has the viaduct lost its charm for the public, who have, over more than a century, been eager for more pictures. The latest is by a man who never saw the viaduct, never set foot in America, yet he has caught both the viaduct and the public fancy. His name is Richard Ward, and he did the work without leaving England.

Full color reproductions of his tempera, which was commissioned by the Kalmbach Publishing Co. of Milwaukee, are selling for a dollar apiece, and according to A. C. Kalmbach, it is currently the best seller of all their painting series.

That the artist, who has never been in America, should have caught the "feel" of the scene so well as to please the highly critical readers of Kalmbach publications—among them "Trains," "Model Railroader," and "Model Trains"—is the more remarkable, as Kalmbach instructed him to paint the viaduct as it was in 1910. And that was in 1956!

Ward worked from numerous photographs of the bridge, including carefully chosen color shots of the stone, and a large file of pictures and drawings of Erie Railroad and Delaware and Hudson equipment of the first decade of this century.

For the sake of composition, he did take liberties with the arrangement of the viaduct—but the details of his rolling stock are said to be correct. Can you spot any errors? Or are you unable to remember 1910 rolling stock that well?

'Trains' Reaches Its 7th Edition

TRAINS by Robert Selph Henry.
(Electronic Age Edition.
Bobbs-Merrill, Indianapolis. 152 pp. $3.95.)

Ever since its first appearance in 1934 Col. Henry's book has been regarded as a standard popular work on American railroading.

Designed to appeal to all age groups, and to a wide range of interests in railroading—history, operation, maintenance, rolling stock—the work has been brought up to date from time to time over the years. Since its author is vice president, public relations, of the Association of American Railroads, it carries an authority that many other books do not.

This edition, the seventh, is, like its predecessors, richly illustrated, and is the second edition to appear within three years.

A new chapter has been added to the material in the 1954 book that tells how electronics plays its part in modern railroading, in ticket offices, in classification yards and in dispatching.
Erie's New York Division Offers Varied Railroading

Multiple-Track Main Line Runs Straight to Goal; Branches Wind Through Hills

In its 303 miles the Erie Railroad's New York division offers every kind of railroading there is, from multiple-track super-railroad that runs straight toward a definite goal, passing through deep cuts and vast marshes to single-track lines winding in a series of S-curves up steep grades, seemingly bent on going nowhere—and arriving there.

Its heart is the vast Croxton yard, with two modern humps, and a capacity of 5,600 cars. Out along the main line the high-speed freight and passenger trains roll through modern cities with gates and traffic lights interlocked to assure no interruption of rail or road traffic; on some of its branches that wind through the hills, the trains stop at every crossing, and are flagged through.

Among its customers are concerns so vast that multiple-track yards served by six locomotive crews are busy 24 hours a day, yet much of the division runs through the vast uninhabited Jersey Meadows, a lonely area where nothing grows but bulrushes, higher than a man's head, and as dense as any jungle.

This is the division that last year originated 115,000 carloads of freight, and delivered 240,000 carloads.

And the freight was as varied as the topography of the road: Paper and coke, pitch and pipe, coal and clothing, pills and boilers, perfume and detergent, fine wines and acid, adhesive tape and glass.

Giraffes, Too

Even giraffes and hippopotamuses do not surprise the train crews who handle the cars, nor the clerks that make out the bills of lading. For among the points served on the Newark Branch is the United States Animal Quarantine Station, and prize bulls from abroad bound for the western ranges, and exotic animals destined for zoos and circuses must stop off there until the government is sure they bring no diseases with them.

All this movement of freight is complicated enough, especially over the varied types of railroad that make up the division, to challenge (Next page, please)

12
the most expert staff of railroad men. Yet the men who make this complicated railroad work under the direction of John R. Ebert, superintendent of the division, have certain added problems.

These problems are the dozens of commuter trains that carry a flood-tide of passengers, 18,000 strong, to and from New York, inbound in the morning, and out again at night.

Commuter Trains

Somehow they must weave the commuter trains in and out, keep them on time, deliver and pick up the freight on time and make the whole thing work.

That is not too easy, either. For one part of the division is not part of the Erie. It is the New Jersey and New York, operated under court order by the Erie, but in receivership. That makes for difficulties undreamt of by many railroaders. For its expenses are under court control, and if a new length of rail is needed, it must be found in one of its less busy sidings.

People, too, make life interesting for the staff. There are underprivileged children in the less attractive parts of Newark who use the tracks as a playground; and, at the end of one branch, in a town where it is said that the chauffeurs keep chauffeurs, there is a woman who thinks it would be nice if the Erie painted its station Easter Egg style every Easter Eve.

Easter Egg Plan

This, she says, would give the children of her neighborhood a pleasant surprise on Easter morning, but she feels it would lose its point if the station were not repainted in its usual colors by Monday morning.

Complications like that are as nothing to the men who make the Erie's New York division work as a smoothly-operating unified machine.

(Turn the page, please)
WEST ARLINGTON CUT, on the Greenwood Lake, seems hundreds of miles from any city, yet Newark is close by, and New York only minutes away.

WILBUR J. BETZ is passenger trainmaster.

HOWARD B. HART is trainmaster-road foreman of engines at Port Jervis.

ONCE THE EASTERN TERMINUS of the Erie, Piermont Dock was a wonder of its age. Over a mile long, it jutted out into the Hudson, and was covered with busy shops, roundhouses, offices and yards. Today mounds beneath the bulrushes mark the sites of the larger buildings, and the cries of wild duck are the only sound of life.

New York Division

(Story begins on page 12)
despite its diverse nature. But even they admit that the division can’t be learned in an hour.

Perhaps the easiest way to learn the division is to start where the railroad had its eastern terminus in the days when laws complicated matters by forbidding the Erie to operate outside the state of New York, or to connect with any other railroad, and return to the present main line in a later chapter.

Great Work Deserted

That starting point is at Piermont-on-Hudson, on the east bank of the Hudson River, where that river seems to pause on its way south to New York Bay. Here the river is at its widest, and forms a lake that the Dutch settlers named Tappan Zee. Here too, the early men of Erie saw, was the closest point to New York City they could reach.

Far out into the Tappan Zee they built a great artificial causeway, more than a mile and an eighth long, and wide enough to accommodate all the road’s shops, a roundhouse, and many freight and passenger tracks, as well as berths for the passenger and freight steamers and the lighters that would connect the early Erie with New York City and its harbor.

From this point the road ran west to Suffern’s (now Suffern) as close to the New York-New Jersey border as the hilly and mountainous country would allow, and then turned toward the northwest on what is still the main line.

Bulrushes Sway

Today bulrushes sway in the wind for most of the length of the pier, and only at the shore end is there any activity. There a paperboard company has a factory. But standing at the shore end, and looking out over the pier, an observer can see hillocks that once were busy shops.

In the day the pier was built, earth had to be moved by men with shovels and horses with carts. The pier was one of the wonders of the world. Even today it is an awe-inspiring work. Most of it is maintained by its present owners as a game preserve, and a fence keeps life safe for the wild duck and geese that nest where once thousands of men worked.

Now that part of the old main line is the single-track Piermont Branch.

(Next page, please)

Erie Railroad Magazine
a line marked by deep cuts, heavy
grades—one of them nearly eight
miles long—and sharp curves.

So it is little wonder that the
present main line follows the route
of a group of New Jersey railroads
which, by 1851, had become the 4
foot 10 inch gauge Ramapo, Paterson
and Hudson River, which ran from
Pavonia Ferry Landing to Suffern
and Ramapo. At Suffern passengers
would alight and transfer to the 6-
foot gauge Erie cars, if they pre-
ferred not to take one of the Erie
steamers from Manhattan to Pier-
mont.

On its way west from Piermont
the Piermont Branch crosses the
Northern Branch at Sparkill, called
after the little stream of that name,
which the Piermont Branch follows
for a while.

On its way to Suffern the branch
passes through Nanuet, where it is
joined by the New Jersey and New
York coming up from the south, and
a little farther on, through Spring
Valley, where the NJ&NY, which en-
joy trackage rights between those
points, leaves it for Thiells, the sylvan
and beautiful, but very quiet, norther-
ern terminus of the NJ&NY.

And a few miles farther on the
Piermont Branch reaches Suffern,
now the northern boundary of the
New York City commuter traffic and
the point where the old Ramapo
road, part of the Erie for many years,
heads in a bee-line, four tracks wide,
for Jersey City and Hoboken.

Truly Rural

But let us return to the shore
of Tappan Zee, a few miles north
of Piermont, where Nyack, a pleasant
residential town, and the home of
Helen Hayes, stands. Nyack is the
northern terminus of the Northern
Branch, once the Northern Railroad
of New Jersey.

The Piermont Branch is truly rural;
but the Northern Branch has a split
personality, scenic from Nyack to
Cresskill, and industrial in the ex-
treme from Cresskill south. Too,
it is single track from Nyack to
Palisades Park, and double track to
the point where it joins the main
line just outside Jersey City.

At Nyack the Northern is close to,
and high above, the Hudson, on the
top of the cliffs called the Palisades.
But a series of hills and steeper cliffs
soon pushes it toward the river, and it
descends the Palisades on a long
grade to run beside the silver river—
very beautiful, and as any operating

(Turn the page, please)
New York Division

(Story begins on page 12)

man can tell you, very demanding on locomotives and expensive to operate. Between Grandview and Sparkill, mansions, usually rare so close to railroad tracks, cling to the cliff directly above the line, squeezed between it and a road cut out of the cliff above their roofs.

As Jersey City is approached the scenery gets more and more industrial, with heavy industry following light, and finally the Northern reaches Susquehanna Transfer, and begins the last lap into Jersey City.

HERE IN THE PASS AT GREAT NOTCH, the Greenwood Lake's double tracks become two single tracks, one turning off to the left to form the Caldwell branch, the other continuing to Wanaque-Midvale.

NEAT LITTLE VERONA STATION, on the Caldwell Branch, still bears the monogram of the Caldwell Railroad above its door.

BUILT OF STEEL AND CONCRETE, and faced with limestone, this new bridge will carry the historic Piermont Branch, once the Erie's main line, over the new Interstate Palisades Parkway.

Mystery Solved

And here the mystery of why Northern trains still use the Jersey City station is solved. The Lackawanna line from the west emerges from a tunnel cut through the solid granite of Bergen Hill far above the tracks of the Northern, and at right angles to those tracks, and enters Hoboken station on a trestle. The Northern runs along the east side of the hill, and cannot turn, nor can it climb to join the Lackawanna.

The New Jersey and New York parallels the Northern Branch, but it can reach Hoboken as it leaves the main line well to the west of the Archways through Bergen Hill. Until recently it served an almost wholly residential area, but now, in its first 12 miles north of the main line, the Jersey Marsh is being filled in, and factories and warehouses are springing up. All are modern, and there are so many of them that in those 12 miles the switch crews of the way freight have consignees to serve.

However, once these 12 miles have been passed the NJ&NY's path lies along a series of residential towns, towns proud enough of themselves that one, Westwood, even erected and maintains a stone railroad station of modern design for its residents to use. Like the Northern Branch its scenery grows more beautiful as it goes northward.

Newark, Greenwood

Just as the Northern Branch and the New Jersey & New York form two parts of the Erie network, one on either side of the Hackensack River to the east of the main line, so do the Newark Branch and the Greenwood Lake division to the west of the main line.

From Jersey City the way to the two western lines lies through Croxtton, where the way to the branches turns off toward and over a drawbridge across the Hackensack River, in the midst of the marsh south of the main line.

Just west of the bridge the two lines take on their own character, and on the ground it is easy to see why the Newark Branch, which looks mysteriously pointless on the map, is one of the Erie's important lines.

From the drawbridge the Newark Branch cuts directly west across the marshes to Kearny and Newark, where, from the solitude of the bulrush jungle, it plunges into the factory area of those two towns, and, running close to sea level, its double-track line passes the back doors of factories.

STEEL COLUMNS OUTLINE THE NEW CAR SHOP and roof trusses are being placed.

Plastic, Glass, Aluminum to Form Walls of $3.3 Million Building

STEEL is rising rapidly on the site of the Erie Railroad's new $3,341,000 steel, aluminum, plastic and glass car repair shop at Meadville, just south of the main line, and engineers estimate the building is about 30% complete.

The L-shaped structure, which rests on treated wood piles driven deep into the earth, has already taken shape, one wing is being roofed, and it is possible to trace the outlines of the second wing by the long lines of columns, spaced 25 feet apart, on which roof trusses, girders and the two-foot deep flanged supports for the crane tracks are now being applied.

Once the building is complete—and it is now scheduled to open for business in February 1958—it will be equipped to build new freight cars as well as to maintain and repair the 21,000 which now carry the Erie diamond.

Among the new shop's facilities is a modern locker room, 300 feet long and 27 feet wide. It is designed and equipped with the comfort and convenience of the 250 men who will work in the shop given first consideration.

Following the best modern practice, there will be no floor columns in the whole building, even in those areas where bridge cranes do not operate, so that working spaces will be completely unencumbered.

One of the wings of the vast building will be 1,423 feet long, the other 377 feet long. The shorter wing will be 75 feet wide throughout its length; the longer varies from 51 to 215 feet wide.

Road Crashes Kill 40,000 in Year

Forty thousand persons were killed and 2,368,000 injured in accidents on American highways in 1956, according to statisticians for the Travelers Insurance Companies.

Causes of the highway accidents were varied, but most of them, the insurance men say, fell under the following ten heads:

- Exceeded speed limit.
- Did not have right of way.
- Reckless driving.
- Drove off road.
- Cut in.
- No or improper signal.
- Passed on wrong side.
- Passed on curve or hill.
- Car ran away, no driver.
- Car ran away without their drivers.

All this makes a seat in a railroad train look most attractive. There one is safe even from the 3,880 cars that ran away without their drivers—although how they could do that if their drivers took the most elementary safety precautions is hard to understand.

August, 1957
Erie Veterans News

Salamanca
Our regular meeting-dinner at Myers Hotel on June 21 was our last until September.

All members are urged to attend the annual chapter family picnic at Gargoyle Park, Olean, Aug. 17, which will be up to our usual standards.

L. B. Tullar was appointed picnic chairman, with notice of committee and meeting date to be announced.

The September dinner-meeting will be held at Myers Hotel. The October meeting will be at Cuba, with C. R. Fralick as dinner chairman. Ladies are invited.

While the current system membership drive is over, our chapter membership will continue for the remainder of the year, and for the coming years, so please do your share toward securing new members.

•

Jersey City
By G. C. Kalle

Frank J. Reichardt, our treasurer, was taken ill while at work on June 14 and was removed to St. Vincent's Hospital in New York. He was showing improvement at latest reports and by the time this column appears he may be at home, or at least moved nearer to his home.

We are pleased to report that Douglas Horn also is much improved after an illness.

At our last meeting Frank P. Belling, director of social activities, presented 50-year veteran's pins to Roy E. Hart and M. H. Hall. Tracy Cole and J. J. McGlinn were ill and could not be present.

Mr. and Mrs. Karl Walther celebrated their 45th wedding anniversary on June 1.

Our membership drive netted 58 new members and 15 reinstatements. The 1956 total, 99 new and reinstated members, is still within our ability to reach, and possibly surpass. It should be the ambition of each of us to bring in a new member or the return of a former member. Thus we can easily beat the record set a year ago.

The Unity boat ride to Rye Beach, being handled by the Erie and DL&W veterans, is in charge of Harry J. Smith of the DL&W marine department. The steamer Peter Stuyvesant has been chartered for Aug. 17 and will accommodate 2,500 passengers.

Tickets at $2 for adults and $1 for children up to the eighth grade can be obtained from Brother Smith at the Hoboken terminal, or through the secretary at Weehawken.

We have approximately 30 unpaid dues, and would appreciate prompt remittances so we can clear our records.

•

Marion
The annual picnic at Lincoln Park on June 22 was attended by 68 members.

The committee in charge consisted of Mr. and Mrs. Forest Hayman, Mrs. Richard Kester, Mrs. Rolland Reamsnyder, Mr. Adam Eisein and Mrs. Henry Smith.

Games and contests were conducted by Mrs. Frank Lyons, and there was community singing.

The chapter reports 53 new members and four transfers.

•

Buffalo-Rochester
By Ruth Nise Munger

Donald Sears, son of the Gordon Sears, will enter medical school in the fall to work for a D.D.S. degree.

Among those occupying summer homes are Mr. and Mrs. Henry Matthies, Lime Lake; Mr. and Mrs. E. V. Jimenez, Angola, N. Y.; Mr. and Mrs. Ed Lafferty, Waterport, N. Y.

Mr. and Mrs. Robert Heimlich have returned from Florida.

Mrs. William Carpenter left for Florida July 1.

Mr. and Mrs. Clarence Baldwin of California, while en route to New England with their auto and house trailer, called on C. F. Roberts, agent, Silver Springs, and Mrs. Roberts. They also stopped at Buffalo for the 50th alumni meeting of the Class of 1907, State Teachers College, and at Alden to visit his brother, Leon P. Baldwin, retired chief clerk to superintendent, Buffalo.

Get-well wishes are extended to Mrs. A. L. Beatty, Mrs. Feltz, Sr., Mrs. T. J. Martin and Mrs. Francis Murphy.

Charles G. Thoman, retired agent, Silver Springs, hale and hearty, celebrated his 87th birthday June 8. His nephew came from Syracuse to join in the festivities.

Members are making plans to attend the annual meeting of the United Association of Railroad Veterans at Portland, Me., Oct. 11-13.

•

BO Railway Is Dream of Road

The yen to run a railroad is probably in every railroad man's heart. A few realize their ambition; thousands do not. One railroad who has blazed his own way to the top and has had a wonderful time doing it is R. G. Terrell, of Pasadena, Calif.

Terrell built himself a model railroad equipped with a locomotive and several cars. It is a 15-inch gauge road, named the Baxter Ozark Railway. Terrell is not only chairman of the board and president, but he is also listed on the railroad's literature as general manager, general superintendent, master mechanic, purchasing agent, advertising manager, chief special agent, and a few other things.

The Baxter Ozark is 1,875 feet long. The largest—and in fact the only— locomotive operated on the road is a 2,500-pound Wagner steam engine and draws such trains as the "Clark Rider," "The Monkey Runner," "Udal Flyer," and "Hela Sunset". The passenger cars are modeled after British coaches with separate entrances for every compartment, Terrell explains.

Terrell owns a printing press and issues timetables and annual passes. The latter bear code letters, such as "PF" for "personal friend" and "BS" for "big shot."

Since Terrell owns and runs his own railroad with the aid of Mrs. Terrell, who carries the title of assistant to the president, his labor problems are almost nil. Since the railroad does not engage in interstate commerce, he is entirely free from innumerable regulatory, traffic and financial problems which beset the common-carrier railroads and plague railway managers generally. All of which gives him abundant reason to be the happiest and most envied railroad man in America.

... and next time that will cost you days."
Veterans' Outing

(Story begins on page 8)

tickets for rides in the park, and left their elders to their visiting.

Nearly 400 of those who attended ate noon-day dinner in the hotel dining room, while the rest gathered to chat and eat cold fried chicken and other traditional picnic dishes on open-air tables under roofs that shielded them from the sun.

After lunch everyone gathered in the hotel's Crystal Room for the one formal event of the day, the midsummer business meeting. Even there an atmosphere of informality prevailed.

Plaque for Mr. Johnston

Speeches were kept short, and the highlight of the affair, other than routine business, was the presentation of a plaque of appreciation by the veterans to Paul W. Johnston for his services to the railroad in 45 years that have seen him rise from baggage handler to chief executive officer and chairman of the board.

In referring to his coming retirement as chief executive officer, Mr. Johnston said: "The only prerogative left to me is the making of speeches."

He told how glad he was to be at the outing, where he felt himself among a lot of good friends who had grown up together, and told of his pride in the staff he was leaving behind him.

President Harry W. Von Willer greeted the veterans briefly, and said of Mr. Johnston's retirement: "I have received an excellent pattern to follow, and will do my best to follow it."

The presentation of the plaque was made by Walter W. Turner, president of the Veterans. Mr. Von Willer made the traditional presentation of prizes to the oldest veteran, the youngest veteran, and the veteran with the longest service.

Oldest veteran present was Thomas H. Stapleton, 87, who, before his retirement, was a locomotive engineer on the New York division; youngest was Willis A. King, 36, gang foreman in the locomotive department at Kent; and the veteran with the longest service was George H. Nichols, agent-yardmaster at Endicott, who, before his retirement in 1954, had worked 56 years and 16 days for the Erie.

Stapleton and Nichols were both awarded medals; King, a gold wristwatch and a medal.

The affair was presided over by Frank P. Belling, director of social activities of the Veterans, and a member of the Jersey City chapter.

Hubert A. Kelly, Huntington chapter, second vice president and membership chairman of the Veterans, reported that 276 new members had joined since Dec. 20, bringing total membership on May 31 to 4,780, an increase of 6.13%.

Greatest percentage increases had been shown by the Susquehanna chapter, 30.61%, and the Marion chapter, 39.01%, he reported.

The election committee, Edward McCue, Youngstown chapter, chairman; J. R. Fero, Youngstown chapter; and Frank J. Troyano, General Office chapter, rendered the election report.

Of 4,110 ballots mailed to members, 1,827 were returned. Harry C. Travis, Hornell chapter, was elected second vice president, and Leonard P. Johnston, Salamanca chapter, treasurer.

Three officers were re-elected. They were: Leslie H. Arold, of the general office chapter, financial secretary; Rex P. Reebel, Youngstown, recording secretary, and Frank P. Belling, Jersey City, director of social activities.

WILLIS A. KING, Kent chapter, youngest veteran present, shows his prize, a gold wrist watch, to George H. Nichols, Hornell chapter, veteran with the longest service among those attending the picnic.

EARLY ARRIVALS FLOCK AROUND the registration tables on the hotel lawn.
Praise Earned by Erie Men, Women at Work

Sir:
The airplane hull which you just handled for us came through with flying colors.

The shipment left Genoa on the SS President Jackson on Jan. 10, and the car was placed in our plant for unloading by 2 p.m. on Jan. 29. This was possible due to the very prompt handling in getting the shipment moving out of New York and also the good handling in keeping it moving through and out of Chicago.

Your Milwaukee office is also to be complimented on the way they kept us posted on exactly what was happening to this shipment from the time the ship arrived in New York until the car was spotted in our plant. I have given Mr. Trecker a complete in-transit record on this movement.

Hull No. 225 was shipped from Genoa on Jan. 22 on the Hawkey Mariner, American President Lines, and I hope you can do as well with this one...

H. K. Dawe, Traffic Mgr.
Trecker Aircraft Corp.
Milwaukee 14, Wis.

Sir:

Just a note of thanks for the wonderful service you gave us going in and out of Chicago on our recent road trip. Your brand of personal service was highly appreciated and if ever you need a recommendation, please feel free to call upon me at any time.

William F. Walker
Public Relations Manager
The Vickers Petroleum Co., Inc.
Wichita 1, Kans.

Sir:

Thanks a million for your nice job on the Ziegler car. It made every connection as scheduled and was delivered right on the button last Wednesday. This is the kind of service we all appreciate and I made sure that every one of the organization was told of the part you played in getting this car on time to a very touchy customer.

J. S. Gill, Pres.
Upson Co.
Lockport, N. Y.

Sir:

It is unfortunate that many of us do not take time out from our busy days of press frequently enough to say a word of thanks to people who have extended themselves to give us the service that we need at times. We take that service as a matter of fact, I guess. But let a complaint come up and we really squeal loudly.

I want to compliment your railroad for the service granted my wife and myself by our ticket agent at the Ridgewood ticket office. We requested a difficult travel arrangement to Chicago on your road, and your Mr. J. E. Jacobus was most courteous and went to considerable extra effort to satisfy us. We got exactly what we wanted and are very happy about it.

E. L. Shattuck
Glen Rock, N. J.

Sir:

The girls of the Helping Bluebird group liked the ride on the train on March 23. We wrote this note to thank you.

Jane Ryan, Corr. Sec'y.
Helping Bluebirds
Cleveland 9, Ohio

Sir:

The Gast Construction Co. wishes to express its thanks and appreciation for the splendid job done by the Erie Railroad on our recent contracts at Kouts, Ind.

Your local representative, Mr. [L. G.] Hoover, did an outstanding job for both the Erie Railroad and the Gast Construction Co. He handled his job better than any freight agent has ever handled the job on any of our construction contracts in the past.

His task was not an easy one. As you know, we unloaded from 25 to 30 cars a day during the summer months. Never once did we run out of material. This in itself is quite an achievement. However, the service did not end here. A number of times we were forced by unavoidable circumstances to ask the railroad to perform extra services—rush needed cement through, make special switches, expedite cars. Mr. Hoover and all members of the Huntington [Marion] division of the Erie were always eager and willing to do all in their power to help us stay in top production.

We sincerely hope that this recent business has been as rewarding for the Erie Railroad as it has for our company...

Robert W. Gast
Gast Construction Co.
Warsaw, Ind.

"Now maybe those automobile drivers will notice these crossing signals."
Sir:

I shall never forget your kindness to me during my recent trip to New York.

Looking back on it now, I realize that you [William F. Lightholder, passenger representative] must have been on the platform when I boarded the train and that you personally delivered my baggage. I am deeply grateful for all you did for me, although I appeared to be indifferent about it at the time.

Erie Railroad officials are to be congratulated, not only upon their excellent passenger service, but upon their present passenger representative.

Susan White Curry
La Lisa, Marianao, Cuba

Sir:

Some weeks ago we ordered a carload of wood dimension parts from Missouri and requested your [Ken Morrison, agent, Union City, Pa.] advice as to the best routing to expedite the shipment to Union City.

The carload left Cape Girardeau, Mo., Oct. 12, and the car was placed on our siding Thursday morning, Oct. 18, better than six days' delivery.

We compliment you and the Erie Railroad Co. on this fast shipment and particularly thank you for routing it properly and getting it placed on our siding immediately.

Louis J. Bosse, Pres.
Standard Chair Co.
Union City, Pa.

Sir:

May I express to you, both for ourselves and for our client, the Ingalls Shipbuilding Corp., our appreciation of the efforts which you and your colleagues in the traffic department of the Erie made to work out the successful handling of an oversize shipment of steel from Constable Hook Shipyard in New Jersey to Pascagoula, Miss.

The clearances which were worked out permitted large savings in both time and money over what would have been necessary if the material had been dismantled to meet ordinary clearances.

We know how time consuming this type of work is and we want you to know that the efforts put forth were certainly appreciated.

G. A. Heft
G. A. Heft & Co.
New Orleans 12, La.

Taxes Bite Deep
Into Rail Income

Taxes take a big slice of railway earnings.

To illustrate: In 1956, the railroads of the United States operated many thousands of passenger trains daily. On these trains they transported 429 million passengers an average distance of 66 miles each, performing upwards of 28 billion passenger miles of service.

For this service they received $757,000,000.

In the same year they carried an immense volume of United States mail on daily schedules to and from all parts of the country.

For this service they received $287,000,000.

Railway passenger and express trains transported millions of express packages in 1956.

For this service they received $119,000,000.

In the same year, railroads paid federal, state and local taxes totaling $1,129,000,000.

Thus, tax payments by the railroads exceeded their total revenues for the transportation of passengers, plus their total revenues for the transportation of United States mails, plus approximately two-thirds of their total revenues for the transportation of express.

The foregoing tax figure represents the amount which the railroads paid out of their own pockets. It does not include the hundreds of millions of dollars which they collected from the traveling and shipping public and turned over to the Federal Government in the form of transportation excise taxes.

Midyear Report

(Story begins on page 10)

Railroad operating expenses continue to climb. In addition to the 10-cent-an-hour wage increase of last November, a 3-cent coat-of-living increase went into effect on May 1 of this year.

Further increases of 7 cents an hour are due on Nov. 1, 1957 and Nov. 1, 1958. What this means is brought home by Mr. Von Willer, who points out that an increase of only one cent an hour per man adds approximately $432,000 a year to the Erie's operating expenses.

TRANSPORTATION
By T. E. Poe

The regular correspondent, C. R. Swank, and family are spending their vacation with relatives in New Jersey.

Train Dispatcher J. B. Bauer shot 68, four under par, at the LaFontaine Country Club, Huntington. A reporter for the Huntington Herald Press devoted his entire golfing column to a glowing account of Bauer's accomplishment.

Lt. of Police J. E. Zinsmeister spent his vacation fishing at Barbee Lake. Jake says a big turtle innocently grinned up at him as he sat fishing in his boat. When he pulled up his net the turtle had eaten through it and all Jake's fish were gone.

Chief Dispatcher J. R. Michael and family are vacationing in Colorado. They planned on some camping and should have some interesting experiences to relate.

Fred Snyder, first trick operator, "N" office, took advantage of the first Fourth of July holiday that has fallen on his day off in several years, and he and his family spent the day on the beach at Lake Manitou, Rochester, Ind.

MAINTENANCE OF WAY

By Maralene Trainer

We wish many happy retirement years for Trackman L. M. Akom of Van Wert.

Trackman R. L. Abbett has returned to work following surgery at the Huntington County Hospital.

Communications Maintainer F. C. Erickson and wife are proud grandparents of Cynthia, born to Robert Erickson and wife recently.

Congratulations to Lt. and Mrs. J. E. Zinsmeister of Huntington who have celebrated their 25th wedding anniversary, and to Signal Helper William Mann who was married to Ethelind Keller and spent the honeymoon in the South.

Assistant Chief Clerk A. C. Smith and wife spent their vacation motoring in the South, stopping with their daughter and family in Knoxville, Tenn., and their son and his family in Miami, Fla. They were accompanied on the trip by their granddaughter, Carla Smith, daughter of Section Foreman E. D. Smith. While in Miami, they called on Theodore Jacobson and wife. My apologies are due Mr. Jacobson. His correct address is 745 Meridian Ave., Miami Beach 39, Fla.

Mrs. G. H. Robison and Mrs. A. H. Poehler have returned to their homes following surgery at the Huntington County Hospital.

(After his graduation from Iowa State, John W. Hazard, son of William Hazard, office engineer for the Erie at Youngstown, accepted a forestry post in Oregon.}

ROBERT E. BEECHING was named outstanding airman of the month at Parks Air Force Base (Cal.). His father is A. K. Beeching, electrician at Akron for the Erie.

JUDITH ANN DECKER, daughter of David H. Decker, superintendent of the Erie’s coach shop at Susquehanna, will enter Centenary College in September. She is a graduate of Wyoming Seminary.
Kent Division
AKRON, OHIO
By Besse Westbrook

Oscar Westerberg, stowman, spent his vacation with his son, Robert, and family in Jacksonville, Fla. F. M. Smith, claim clerk, and wife made short motor trips to points in Ohio and Pennsylvania.

We welcome back Howard Halcomb as vacation clerk. Howard is on leave from the University of Akron, where he is majoring in business education.

A. J. Campbell, patrolman, and wife spent their vacation in the Smoky mountains.

D. B. Johns, night rate clerk, and family visited relatives in Martins Ferry, Ohio, on vacation.

ASHLAND, OHIO
By E. E. Woodford

R. M. Keller spent two weeks sightseeing in the west.

R. D. Swartz, operator-clerk, vacationed in Michigan.

Kent Herron, son of W. F. Herron, delivery clerk, pitched a one-hit game for the V. F. W. baseball team in the Little League against the Elks' team (11 to 0). The Vets have won every local game. Last season they won the state tournament and placed second in the All Star finals at Indianapolis.

We welcome Tom Benson as clerk-typist.

Ida A. Kerr, retired cashier, has returned from an exciting two-week visit in Illinois and Wisconsin.

P. A. Snyder, chief clerk, and family spent a three-week vacation on the Gulf Coast, doing lots of fishing. T. E. Schlingman, yard clerk, also had a "fish-cation" for a week at Elk Lake, Ontario, Canada.

Diana Mumaw, 11, daughter of A. D. Mumaw, cashier, fell and fractured her arm recently. She is getting along fine now.

E. W. Jones, Jr., general clerk, and family have moved to a new home.

The correspondent and Bob Osborne, rate clerk at Mansfield, motored to Harlan County, Kentucky, for a weekend recently. We took in quite a few points of interest and climbed one of the highest peaks in the Cumberland Mountains.

HAROLD D. TERWILLIGER, assistant chief dispatcher at Jersey City, has retired after 44 years of railroad service, the last 23 of them with the Erie. His associates gave him a wrist watch at a farewell party.

HAMMOND CONSOLIDATED
By Grace Connole

Leameran Jimmy Moscatello and wife have returned from a delightful vacation, which included a trip to Texas, and then back along the coast, stopping at Tallahassee and other points in Florida.

Conductor E. J. LaVigne and Mrs. LaVigne drove all the way to the west coast and supplied us with post card descriptions of the various places they visited. First we received a card from Springfield, Mo., where they spent the first night, having driven 600 miles the first day. Other cards were from the Navajo reservation in Winslow, Ariz., a small sack of salt from Salt Lake City, and cards from Hollywood and San Francisco.

Pipefitter 3rd Class Karl J. Martin, son of the correspondent, has returned to the USS Norton Sound at Port Hueneme, Cal., after spending a 30-day furlough with the family.

Emma Bunce, typist, and John Foley, ticket clerk, are back on their respective jobs after vacations. Emma visited relatives in Ohio and John caught up on local points of interest.

Patricia Sowell, typist, is currently enjoying a vacation in Georgia and will stop in the Great Smokies on her return trip.

We welcome Ralph Wall and Kenneth Cutler, relief yard clerk and vacation typist respectively. Kenneth, who attends Wabash College, Crawfordsville, Ind., is the son of Bill Clerk Raymond E. Cutler.

Having spent three weeks at McCleary's Clinic at Excelsior Springs, Mo., Rate Clerk H. L. Kinzie is back on the job, willing and able.

The daily nap during the lunch period has had to be forfeited by Ronald Ward, relief clerk, since he and his family, including Corky, the dog, have moved into their new home at Griffith, Ind.

Charlie Sidenstricker, stores clerk, and his wife, Geneva, file clerk in the superintendent’s office, attended the Jaycee national convention at Milwaukee June 24-26. Charlie was installed as president of the Marion Jaycees on June 20.

C. O. Phallen, retired trainman, and his wife visited here recently. They are now living in Florida.

Dave McWherter now is stenographer to Division Freight Agent J. L. Tjadén in place of Donald M. Watt. Don resigned and has taken a position with an insurance company.

We are happy to report that Denny Murphy, retired lineman, is doing well after undergoing surgery.

D. J. Schoonmaker, chief train dispatcher, spent a week of his vacation in Salamanca and at a golf tournament in Toledo June 13-15.

H. C. Smith, captain of police, has resumed duty following his vacation.

Mary O’Donnell, accident clerk in the superintendent’s office, won the grand prize slogan contest sponsored by the Altrusa Club. Her slogan, News Bayou, was used for the Convention Daily which Altrusa published during the New Orleans convention July 21-26.

The prize included the convention registration fee, which is the equivalent of $40, and all sessions, all official planned convention meals (three luncheons, two dinners, formal banquet, gratuities and a boat ride).

“Forget what day this is?”

Mr. and Mrs. Joseph Krolikowski of Meadville had this picture taken on their 50th wedding anniversary. Until his retirement Krolikowski worked in the scrap and reclamation plant. The couple have four children and 17 grandchildren. Their son, Marion, is a carman helper for the Erie.

Mary’s record with the club is a perfect attendance for the past 20 years.

Thirty-two members of the Trowel Club held a picnic June 15 at 6 p.m. in Lincoln Park. Prayer was by the chaplain, Walter Lyon. After supper and a short business meeting, games were played.

S. L. Lessley, yard clerk at Harding, has received greetings from Uncle Sam.

Congratulations to Gene Norris, dispatcher, and wife on the arrival of a son.

Dayton, Ohio

By Hannah E. Conley

Jack Weaver, chief clerk at the freight office, spent a vacation in Pennsylvania.

Tom Mundy, retired yard conductor, has returned here after spending several months in Florida.

Richard Clerk, chief clerk in the division freight office, spent his vacation with the Army Reserves in summer training at Indiantown Gap, Pa.

C. P. Underwood, division freight agent, vacationed at Whitewater Lake, Wis.

Stores

Meadville Scrap & Reclam.

By George Smith

Happy Birthday to Ralph Farzalo, Ralph Foster, Ralph Hansen, George Lewandowski, Al Spearhouse, Carl Stadler, Roosevelt McClure, R. J. Wade, Willie Carter.

Glad to report that all plant employees had a safe Memorial Day holiday.

Stockkeeper Stanley and Mrs. Lawhead spent part of a two-week vacation in Reading, Pa., attending the I.O.O.F. grand lodge convention.

The plant was shut down July 1 for the annual vacation, with the exception of a skeleton force.

John Brecht, carman, had a close call on his way to work June 29. A deer ran across the road, jumped on the rear of John’s car, and his legs went through the rear window. Fortunately no one else was in the car.

Conductor William Stuart Allen was given a 40-year pin for continuous membership in the Brotherhood of Railroad Trainmen. Ed W. Petrie was honored at the same time with a 55-year pin. He retired as passenger conductor in December 1952 and was replaced by Allen.

Mahoning Division
M. of W., YOUNGSTOWN
By Catherine E. Holzhuch

P. L. Crowe, retired assistant division engineer, was honored at dinner at the Grotto Restaurant on June 15, when 65 friends and associates presented him with a farewell gift. H. J. Wecheider, engineer M. of W., was master of ceremonies.

W. L. Luce, master carpenter, spent three weeks vacation in Chicago and at home.

Tom Vestal, clerk in the office of the supervisor of communications and signals, visited his sister in Fort Wayne during his two-week vacation.

William E. Dolan, trackman, Franklin, retired May 27 after 24 years with the Erie.

L. R. Henderson has replaced P. L. Crowe as assistant division engineer.

Congratulations to J. T. McCarthy, track supervisor, who is a grandfather for the first time (son of Marian McCarthy Baker, former secretary).

Bernice Kulesa is secretary in place of Marian McCarthy Baker.

YOUNGSTOWN FREIGHT
By Dorothy Gettig

Congratulations are extended to James Bowser and Bob Terrill who celebrate birthdays this month.

A hearty welcome is extended to Richard Sontag, new messenger-junior clerk.

Congratulations also to Mr. and Mrs. Ralph Fero and Mr. and Mrs. Paul Moldovan who celebrate anniversaries this month.

Ralph Fero and his wife have returned from a vacation spent in North Dakota.

Mary Kay Bell is back from her vacation. She spent a few days in New York City.

CLEVELAND FREIGHT
By R. M. O’Connor

Agent C. H. Schlegel’s wife is resting at home after several days in the hospital. Jake Tischler also is home from the hospital and will be back at the rate desk soon.

July vacationers were Ray Martley, demurrage clerk, and J. W. Fogarty, warehouse foreman.

Bob Hildebrand, OS&D clerk, spent a weekend visiting friends in Columbus.

Chief Clerk Carl Grunwald and wife, Tillie, observed their 30th wedding anniversary on June 18.

Julius Gaewsky is retiring this month after several years as freight trucker.

Gerry Goldstein, general clerk, is proud of his new daughter. Lynn weighed six and three-quarters pounds.

George Kilcoyne, chief bill clerk, is learning the art of water skiing the hard way. But he enjoys it so much he is considering buying a boat although he says nothing about skis.

ROAD FOREMAN OF ENGINES
BRIER HILL, OHIO
By Catherine E. Campbell

The Samuel J. Badger (locomotive fireman) family had a happy reunion in New York on June 24 after one and a half years, when Mrs. Badger, son, Samuel, and daughter, Jacqueline, arrived in America for the first time from their native Scotland.

The Badgers now live in Girard and we welcome them to the Erie family. An appreciative “thank you” is extended to Mrs. Badger for the Scotch plaid change purse and gem she brought the correspondent.

Seventy co-workers, retired friends and supervisors attended a dinner at the Arco Club in Sharon June 29, honoring Yardmaster R. J. Allen and Locomotive Engineer John S. Olson. They were retiring after service of 36 years and 48 years respectively.

Remarks were made by Supt. F. J. Mulligan, Asst. Supt. Ward Wilson, Trainmaster P. R. Rice, General Yardmaster T. M. Gibbons, former General Yardmaster Winton Arnold and Road Foreman of Engines Walter Coleman. Both were presented with certificates of service years and purses.

Mr. Olson will spend his leisure with hobbies and friends. Mr. Allen has taken up permanent residence (Next page, please)

Erie Railroad Magazine
at 681 N.W. 41st St., Fort Lauderdale, Fla.

George (Rusty) Minze, son of Locomotive Engineer G. C. Minze, departed from San Diego in June for Japan, where he is in the Marine Air Wing. His duties will be with helicopters in air envelopment. For the present Mrs. Minze will remain in Newport, Ky.

Locomotive Engineer R. W. Horgan, who is a member of the National Guard, spent two weeks at training camp.

A son was born to Mr. and Mrs. Paul Seifarth on July 5 (Mark Evan).

Locomotive Engineer A. V. Hall and Mrs. Hall spent vacation days on short trips and stopped with relatives in Toledo.

Engineer J. A. Nollen is missed occasionally and can be found at his fishing cabin at Pymatuning Lake. Haven't found out yet whether Mr. or Mrs. gets the biggest ones.

The correspondent had a pleasant chat with Road Conductor Charles E. Webb, who is convalescing at home after a stay in the hospital. He tells some interesting facts about his 50 years' service and that gold badge he wears.

Again we welcome newcomers to our roster, this time, George Wydick, locomotive fireman, transferred here from Hammond, and Fred Hinkson, fireman.

We're glad to see Engineer Millard Waugh back on the job after an illness.

Speedy recovery wishes to our convalescents, Mrs. H. F. Byers, Mrs. A. V. Hall, Mrs. Joseph Franko, and Locomotive Engineers Earl R. Ashby and John J. Fader.

Engineer William A. Pfiffer spent all his vacation making changes in the home he acquired recently.

Engineer Leslie Paquet, with Mrs. Paquet and daughter, Ruth, spent a week in New York City.

Nicholas Boros, locomotive engineer, took his sons on an educational tour of Washington, D. C. They visited many points and brought home a suitcase full of literature, enough to share with the boys' teachers.

Engineer Fred V. Nolan shares with his wife and son, Timothy, 3½, his registered western horses. Fred works the horses one and a half hours regularly each morning. Timothy rides his own horse. Mrs. Nolan, too, is an expert rider.

Martin Embert, locomotive engineer and keeper of the bees, twice within a month has come to the aid of distressed ladies. He handles swarms of bees by cutting off the tree limb with the bees and hive on it. Then he puts branch and all in a box, and takes the box home. And the honey from Martin's bees is delicious.

W. G. Coleman, P. R. Rice and Inspector of Operations Eugene Wogan are the marathon trio. If you're curious, the answer is a military secret. This reporter can't promise a column for the next issue. She will be on vacation, but will try to catch up with the news for the following issue.

Accounting

OFFICE OF COMPTROLLER
By Lou Paul

Mr. and Mrs. C. G. Lehmann had a pleasant and exhilarating stay at the seashore.

Wilma Kanovsky had an unusually interesting and delightful vacation trip by rail to New York, then through New England to Portland, Me., and Halifax, N. S., returning via the same route.

Good luck to genial Chuck Percent, who has moved to the operating department. A hearty welcome to his successor, Norm Kitzerow.

HORNELL ACCOUNTING BUREAU
By Lynn Lamb

Jack Burlingame, Bruce Dungan and Frank Bottomley do lots of fishing at Seneca Lake.

Bob Pebbles turned in his Green Hornet for a newer car.

Harvey Schneeges received a letter from Ralph Horseman who sent his regards to all his buddies.

Bob and Ginnie Argentieres' radio was struck by lightning.

Jack Starr made a good exchange of sport shirts before going to the Fifty Club steak roast.

William Cregan and Harry Vanderhoof went to Albany on union business.

George Hussong, third ward alderman, has announced his candidacy for re-election.

Jack Meehan has bought transportation for his wife and family.

"Sailboat" Sayles is really showing the rest of the Loon Lake Yacht Club how to sail a boat.

The Fifty Club held their annual steak roast and a good time was had by all.

Mary Pollinger spent her vacation at New Haven, Conn., visiting Mrs. William Lane, a former employe of the bureau.

Harvey Miller has traded cars.

Edna Metzger visited in the Bronx.

Stan Walter is a patient in the VA Hospital in the Bronx and his wife, Carolyn, is spending her vacation there to be with him.

Don Crowley has enlisted in the Army.

Tom Placenti has been called back to work at the Erie shops. He was given a farewell party by bureau members at Jack Smith's Restaurant.

Bill Barnett visited brother James in Buffalo. Jim is a former bureau employe.

Walter Coston is enjoying his new movie camera.

All of the golfers worked overtime getting ready for the annual picnic.

The Burlingame family spent a vacation at their cottage on Loon Lake.

Leon Hopkins visited the office, looking fine after an operation.

One hundred eighteen members of the bureau and 44 of their dependents belong to the Credit Bureau. Under the capable direction of Walt Coston the Credit Union now has over a quarter of a million dollars in deposits in 2½ years.

This reporter has completed seven years of writing for the magazine. Many thanks to all who have given me assistance and to those who have complimented me on the column, especially those people along the line who have sent word that they enjoy reading the bits of news in this column.

Best wishes for speedy recovery to S. Walter, L. Hitchcock and A. Zanieri, who are off duty due to illnesses and operations, also to former bureau employe, C. K. Rhodes.

(Turn the page, please)
"She must think that she's the ICC."

**AUDITOR OF DISBURSEMENTS**

By Denny Kish & Dorothy Buday

Don Keister has finally transformed his greenhouse back to a garage. It took him one whole day to shovel out the topsoil and wash out the cobwebs.

Frank Kelly is still apartment hunting and finds the going a little rough.

Steve Gall and Denny Kish are on two weeks' duty at Camp Breckenridge with the Ohio National Guard. This is the first time for Steve but old stuff for Denny who is a staff sergeant.

George Ernest and his wife spent two weeks at colorful Madeira Beach, Fla. They motored and George said the trip was scenic as well as relaxing.

There is no need to ask E. T. Draney and his wife where they spent their vacation—New York State of course!

Marilyn Haely was a recent visitor at Cuba Lake and Olean, N. Y.

We are all happy to have Leon Hopkins back after a six weeks' illness.

Jim Hough is limping around the office with a sprained ankle.

A controversy has arisen in the machine room between Al Okeson and Nelson Potter over the performance of their new cars. So far it has stopped short of racing.

A hearty welcome is extended to Art Coscia, new messenger, and Carolyn Collins, stenographer, who is one of this year's five Erie scholarship winners.

**AUDITOR OF REVENUES**

By Jimmy Murphy

The Columbia building is getting all spruced up. There seems to be a mild epidemic of stiff necks around the office, probably the result of indulging in the fascinating pastime of watching the electricians perform on their scaffolds.

The beauty of the Marine building has been further enhanced by the addition of Jean Scholleart to the corps of efficient correction clerks.

Among the 31,000 fans who took in the All-Star baseball game in St. Louis was Frank Buck whose brother, Jack, is the Cardinals' radio announcer.

A warm Erie welcome to Carol Mathison, Bob Ostrander and Carol Kindler. Other new faces among us are Ray Austin, Rich Daley, Tom LaBarbera and Allen Goetz.

We were about to introduce you to the new typist, but on second glance it's Judy Oldenburg, just returned from Miami with a lovely tan which should last through the winter.

Regretfully we said au revoir to Baggage Clerk Jim Lillis who retired June 14 after 66 years' service. More than 400 associates and officials participated in a testimonial. Tom O'Neill emceed the affair and presented Mr. Lillis with a substantial remembrance from his many friends.

Jim was a highly esteemed employee and always had a smile and a cheerful word to go with it. He was equally pleasant with everyone and we'll all miss him. We wish him health, happiness and contentment in the years to come.

Marsha Braunlich, talented daughter of our assistant GBL clerk, was graduated with high honors from Marquette U. Mr. and Mrs. Braunlich may well be proud of such a fine daughter.

Marty Marcellino is very uncomfortable these days with a banged-up finger as a result of his baseball activities.

There are so many additions nowadays we feel duty bound to mention a subtraction. Sue Witwer left July 8 to await a visit from the stork. Sue was showered with gifts and good wishes at a dinner given by her friends.

The pleasant week-ends have increased the activities of golfers like Bill Mauerer and Chuck Von Duhn; Rip Ripepi and Benny Cosenza, while Helene Toth continues her par busting out at Highland.

Although the news may be late, the elation of being one of the prettiest brides of the season does not wear off rapidly, so we extend best wishes to Maureen English who was married to Jay Murray in St. Coleman's Church on June 1. After a reception at the Lakewood Community Center, the couple left for a honeymoon in the Pocono mountains.
by Pat Masterson & Barbara Sado

Land and Tax

By Pat Masterson & Barbara Sado

Best wishes are extended to Elyane Sacks who became the bride of Robert Kwait on June 23. The honeymoon was to Florida and Nassau.

Ray Humble has given Gail Symes an engagement ring.

Pat Serio's wedding has been set for Oct. 5 and she's busily counting the days.

Florida has attracted George Winter and Phyllis Reeve. George spent his vacation there and hopes to go back.

Paul, and Phyllis Reeve. George spent his vacation there and hopes to go back. Phyllis and her husband, Paul, liked Miami so well that they have settled there, Paul having started in business.

Camping was discussed at length after Jack McClelland and Kenny Dolphin returned from Michigan with the Scouts. Jack goes every year with the Girl Scouts. This season there were 15 of them, ranging in age from one to 15 years.

Don Boyd's parents are on a European tour.

Sue Ann Brockel is our new messenger.

Car Accountant

By Ella Carpenter

Culminating an office romance, Lucille Frater and John Babli eloped to Angola, Ind., on June 27 and became Mr. & Mrs. They are in their new home in Shaker Heights and report that the cash gift from co-workers will go toward the purchase of a porch glider.

It was a happy day for the Harald Stroms when Harold, Jr., finished his four-year hitch in the Navy and came home for good. The whole family enjoyed a week at Atwood Lake.

Mr. and Mrs. Joseph Nicholson, Sr. entertained her father, Fred Klingenberg, Port Chester, N. Y.

Mr. and Mrs. John Michel and Mr. and Mrs. Percy Trebble and family had a delightful vacation in the Pocono mountains.

Mr. and Mrs. Charles Halusker preferred the seashore. While visiting relatives in the east they found time to go crabbing on Long Island.

Mr. and Mrs. Leslie Arolt spent some time at their favorite vacation spot, Greenwood Lake, N. J.

Lynne Priest attended the Railway Business Women's weekend party in Buffalo, held at the Buffalo Field and Trap Club.

We were sorry to have Mary Ann Sabo leave us, but our loss is the pass bureau's gain. The old fashioned lamp to complement her Colonial bedroom furniture, presented to her as a farewell gift, was quite a conversation piece around the office all day and very much admired.

I'm on my way again, this time to New York, Philadelphia and Villa nova, Pa.

Allegany Division

SALAMANCA, N. Y.

By S. Minnee

Chief Crew Caller Ernest G. Abers and wife, and Mr. and Mrs. Carl Abers of Stockton, N. Y., motored to Seattle during July where they visited a brother, Delbert, and his wife. A fishing trip in the Pacific Ocean was a highlight of the trip.

Yard Clerk Howard G. Stephens attended the Cleveland vs. Baltimore baseball game at Cleveland on June 15.

Yard Brakeman Ralph W. Scoulen, with his wife and son, visited Sgt. Theodore Tingwall and his wife at the helicopter school at Fort Eustis, Va. They also stopped at the Newport News Naval Station.

General Yardmaster Harry J. Kamholz and wife visited St. Anne's Shrine in Canada, then crossed into Maine and returned through New England.

Congratulations to Mr. and Mrs. Gerald Fordham on the arrival of a daughter weighing seven pounds one ounce June 22. The mother is Barbara Fordham, M. of W. clerk-steno.

Congratulations also to Train Dispatcher James O'Brien and wife on the arrival of a daughter weighing seven pounds four ounces June 29.

Lieut. (JG) Allan Carry and family visited with Section Foreman Nick Reach and his wife late in June. The lieutenant is stationed at Grotton, Conn. Mrs. Carry is a daughter of the Reaches.

Four local students on the academic honor list at St. Bonaventure University are John S. Maier, James O'Brien, Robert Pawk, second trick caller, and Neil Rojek, son of Yard Conductor A. F. Rojek.

Congratulations to Carman Eugene Yehl and wife on the arrival of a girl (seven pounds two ounces) June 30.

Barbara Jean Logan, daughter of Supt. Donald A. Logan and Mrs. Logan, and Daniel E. Hull were married June 29 in the First Congregational Church by the Rev. Dr. Gerald M. Kendall. The groom is the son of Mr. and Mrs. Clifford Oakley Hull of Stratford, Conn.

One hundred fifty guests were present at the double ring service in which Mr. Logan gave his daughter in marriage.

Following a trip to Chattanooga, Tenn., the couple are residing in Bradford.

Susquehanna Division

HORNELL DIESEL SHOP

By R. L. Hammond

On D-Day (June 6), a son was born to Mr. and Mrs. Joseph Hogan (electrical foreman) at St. James Mercy Hospital.

Gang Foreman H. C. Cundy, who will retire on Sept. 1, is planning a trip to Hawaii.

The back shop closed June 28 for the annual three weeks' vacation. When the retirement was announced of Homer Clemens, test engineer, a dinner was held for him by the mechanical department supervision at Jack Smith's restaurant. Another guest was Carl E. Maahs, master mechanic, who was transferred to Buffalo.

Employment

JERSEY CITY, N. J.

By V. T. Bustard

Nancy Brennan and her new family are now riding around in a new car.

Mrs. H. E. Kelly spent part of her vacation at Beaver Lake, N. J., and Blake Rhodes took his annual trip to Lake Winnipesaukee, N. H.

Andy Leishman, formerly of this department, became the father of a second son, Robert William, on June 15.

(Turn the page, please)

Marine
By Jesse E. Baker

At 9:05 a.m., E.S.T., June 7, the ferryboat Chatham (ex-Youngstown) left our marine yard in Jersey City for the Lackawanna ferry slips at the foot of Barclay St., New York, and then to Hoboken Slip No. 4.

Capt. Devaney of the D.L.&W. took over the Chatham and says she handles very good.

The correspondent met Gus Matousek, Sr., retired ferrymaster, in New York where he is doing very well in the jewelry business. Gus sends regards to all.

Capt. Harry Flood, retired inspector, is visiting his granddaughter in Dallas, Pa., and will then spend a few months in Laurel, Del.

John J. Messineo, chief clerk in the marine yard, has been appointed inspector, succeeding Capt. Harry Flood. John started his new assignment July 1.

Elmer Price, ferryboat porter, spent three weeks in Charleston, W. Va., with relatives.

Robert Templin, engineer of the tug Akron, resigned July 5 and will live on his ranch of several thousand acres near Morristown, Arizona.

Capt. William Wolter of the ferryboat Jamestown is back on the job after a long illness.

Domenick Guleich, blacksmith, marine yard, stopped in to say hello and sends best wishes to all the old-timers.

Do you know that the East River is not a river? It is a sound. The East River connects two large bodies of water and has no source.

Lighterage
By Regina F. Frey

Al Poschochewicz won three prizes for his roses at the Metropolitan Rose Society exhibit.

Rose Aldridge, former typist, visited us with her little daughter.

We are happy to report that Al King, husband of Frances, is recuperating satisfactorily at home after an operation.

Bill Evans spent a week of his vacation in Jamestown, N. Y.

Bill Gannon brought his two daughters to the office while on vacation.

Congratulations to those celebrating August birthdays, Ed Peterson, Ed Vreeland, Tom McGowan, Paul Romeo, Regina Frey, Dot Shea, Harry Mondello, Herman Miller, Anne Schreier, Caesar Seville, and Alice Norton and George Ulrich, retired.

“Claims he’s absent minded. Says he forgot his ticket.”

New York Division
WEHAWKEN LOCAL & DOCKS
By Violet Schmitt

Pfc. Fred Stankiewicz, son of Casimer Stankiewicz, checker, and Phyllis Gianandreau were married June 1 in St. Ann’s R. C. Church. The groom has resumed his duties with the U. S. Army in Germany, where his bride will join him later.

Wedding anniversary congratulations to Agent H. H. Brown and Mrs. Brown (30th); to Agent W. Flusk and Mrs. Flusk (30th); to G. C. Kalle, assistant agent, and Mrs. Kalle (30th), and to Checker L. Horvath and Mrs. Horvath (21st).

Chief Clerk H. H. Gaherin recently reached the 40-year mark with the Erie.

A. Mignoli, dock laborer, J. Dugan, former, J. Sheridan, general clerk, and F. Kriessler, trucker, are back at work after illnesses. Truckers H. Cuthbert and P. De Candia are expected back soon.

W. Boise, retired assistant crane foreman, called here recently, looking very well.

Birthday congratulations to Joe Welsh, general foreman, and Leo Hudson, dock clerk.

We welcome A. Piazza, from 28th St., New York, as messenger.

J. Lanigan, junior clerk-messenger, has taken up new duties at Dock 8, Jersey City.

Arthur Vlau, claim clerk, rested on his vacation in anticipation of the opening of summer activities at Keansburg.

General Foreman J. Welsh’s favorite vacation spot is his back yard in Lodi.

Marie Hayes, employment clerk, and husband, Joe, kept cool at Oak-land, while J. Chrzanowski, branch clerk, and his 7-year-old son went fishing.

J. Ricciardi, foreman, and Roger Matthews, checker, took their families to Canada on vacation.

Bud Reed, shipping in transit clerk, and family vacationed with relatives at Lake Walkill.

Mrs. J. Murphy and daughter, Betty, are visiting relatives in Ireland, while Jimmy and Jimmy, Jr. enjoyed the scenery as far west as Yellowstone National Park.

PASSAIC, N. J.

We are glad to have Dick Fitzgerald back again after a serious eye operation.

Harry Flanagan spent part of his vacation at his usual fishing haunts.

Cashier Marion Kaiser motored to Dayton, Ohio, for the women’s bowling congress.

Charley Eyth spent a vacation in the mountains.

Al Stoebel was a color bearer in the Decoration Day parade.

Good luck to Mary Molinaro in her new home.

SUPERINTENDENT’S OFFICE
JERSEY CITY
By Mary A. D. Meyer

A retirement dinner at the Union Club in Hoboken June 8 honored Charlotte Arnitt, claim clerk, Jersey City Local. Attending from this office were Mr. and Mrs. Joe Stany, Mr. and Mrs. Haney Close and Mr. and Mrs. Harry Coleman.

Best wishes to Harold Terwilliger, assistant chief dispatcher, who retired June 30.

Wedding anniversary congratulations to Mr. and Mrs. Harry Giblin (July).

Mary Ellen Nalewalski, daughter of Mr. and Mrs. Joseph Nalewalski, was graduated in June from the Academy of the Sacred Heart, Hoboken. Commencement exercises were at Our Lady of Grace Church.

Raymond Joseph Nalewalski, son of Mr. and Mrs. Joseph Nalewalski, and Marilyn Gebhardt were married on April 15. Raymond completed school at Fort Monmouth and now is in Germany. His wife will join him in the fall.

John Campbell and Ray Paden went fishing in Tennessee on vacation.

Visitors were Mel Hall, Joe McGinn, Harry Coleman and Mike Lynch.

Cards were received from Eleanor Salley, on vacation at Miami Beach, Fla.
New Car Shop

(Story begins on page 17)

Three bridge cranes, two of 15 ton capacity, the other a 10-tonner, will serve the shop. Three small gantry cranes will handle the smaller lifting and carrying jobs.

Area within the building will be subdivided into a three-track main car repair shop, a truck shop, a plate shop, a blacksmith shop, a machine shop. The paint shop in the longer wing will be equipped with an automatic traveling spray booth and a manual traveling spray booth.

Other facilities in the building will include an undercoating area, a modern lumber mill and a specially designed storage area. For safety, oil, paint and other inflammable materials will be segregated in a special storeroom of their own.

The building will be sided with corrugated aluminum and transparent plastic sheets, with fixed glass sash near the ground level. Large ventilators, 25 feet apart, will rise from the center of the roof.

Replaces Dunmore

The car shop, which replaces the former Dunmore shop, opened in 1880, is expected to produce great savings because of its efficient plan, its central location on the main line (Dunmore was off on a branch), and the fact that men will find it a pleasant place in which to work.

Besides being a pleasant place to work, it will be an efficient one, thanks to the fact that at every stage of the planning John F. Mullen, superintendent, car department, specified what the needs of his department were, and the engineers concerned found solutions to those requirements.

Osborn Engineering Co., Cleveland, who designed a similar shop for the Pennsylvania Railroad, were consulting engineers on the job. They prepared the plans under the supervision of Blair Bowers, chief engineer of the Erie Railroad, and C. A. Roberts, the Erie’s engineer of structures.

The work is being carried out by the Hughes-Foulkrod Co. of Philadelphia, under the direction of A. B. Fowler, superintendent of construction for the Erie.

... 

About 60% of the railroad investment in the United States is in fixed property. The remaining 40% is in locomotives, cars and work equipment.

Ferry to End

fast and frequent; and those Erie passengers who still use the Jersey City stations will find facilities ready for them—a ticket office and waiting room for those who wish to use the H&M. Or they may choose to use the convenient bus service.

In recent years, the Erie has incurred annual losses in operation of ferryboat service of nearly a million dollars a year. To eliminate this out-of-pocket loss, the Erie and Lackawanna consolidated their passenger terminals, with the Erie moving its service from Jersey City to Hoboken. Each railroad expects to reduce its losses on commuter operation by approximately a million dollars a year through this joint operation and the elimination of the Chambers Street ferry.

New York Division

of all sorts, including one that makes a special grade of paper used for making government charts.

It then turns sharply north, and passes under the Greenwood Lake at North Newark, meanwhile crossing numerous Newark streets in the oldest part of that town, and continues north through Nutley, a pleasant town, and then through bulrushes again to South Paterson, where it rejoins the main line in an industrial area.

The Greenwood Lake crosses the marsh to the north of the Newark Branch, and reaches high ground at Arlington, climbs a hill there, and descends in a long cut in west Arlington, passes over the Newark Branch in North Newark, and at Forest Hill the Orange Branch leaves the Greenwood Lake to run out through the Oranges and Bloomfield.

At Forest Hill the double-track Greenwood begins to turn north, and to turn into a “mountain railroad” climbing up through Montclair to Great Notch, a pass in the granite hills, where gravel pits break the rural and residential character of the area.

Great Notch is a junction of importance on the Greenwood Lake, for it is here that the two tracks separate, and the division becomes two single track lines, one winding through the hills to exclusive Essex Fells, and the other passing through resort areas to Wanakee-Midvale. But even this area is developing industrially, and promises rich future freight traffic.

(The next installment will discuss the New York division main line, the Graham Line, the Bergen County and its fabulous Dundee Spar.)

Promotion on the way?
Be ready when it comes!

With ICS training under your belt, when the time comes to move up, you can move with confidence—knowing you’re fully prepared.

Whatever phase of railroading you’re in, there’s an ICS course that can help you in your career. Every course is supervised by practical railroadmen.

You study at home, in your spare time. Clear, easy-to-follow instructions lead you through every step.

Get set for success! Send the coupon today for complete details.

Erie Railroad Magazine
the fastest cure for worry about cancer: a call to your doctor now!

Seared? You shouldn't be! Look at it this way. The average man who walks into the doctor's office walks out floating. That lump that was so frightening...nothing to worry about at all! The sky's bluer, the air's sweeter, it's a great big beautiful day...because he picked up that phone and called!

It happens all the time. It can happen to you. "Sure," you say, "but just supposing"...OK. Let's look at the facts. In past years, we were saving 1 out of 4 cancer patients. Today, we're saving 1 in 3. And the odds could get better still...if people would call their doctors in time.

So go ahead...call. See your doctor now. And after your checkup—how about a check for the American Cancer Society? Every dollar sends us further along the road to cure. And when that happens...it's going to be a wonderful day for us all! Send your check to "Cancer" in care of your local Post Office.
YOU'RE LOOKING AT A FREIGHT TRAIN!

Each of these punched cards provides up-to-the-minute information about a freight car on the Erie. It tells where the car came from, where it is now, its contents, weight, destination, and other important data. Put them all together and you have a freight train.

From these cards, this vital information is quickly teletyped to key points on the railroad. Simultaneously, at headquarters, "trains" of these cars are fed into big electronic machines that print lists showing movements and locations of all loaded cars on the Erie. From these lists the Erie man in any of our 47 nationwide sales offices can quickly tell a shipper or consignee what he wants to know about his car—just one of 25,000 on the Erie.

This is the heart of Erie's "Quick Action" car locater service—another dependable Erie service that shippers know they can rely on for prompt, efficient handling of freight. It's typical of Erie's progressive railroading—the reason more and more shippers say, "Route it Erie!"
